

TIPS & HACKS

Three Tier Stationary Caddy

Categorize and organize:

Use each tier of the caddy to organize your bathroom essentials. Assign one tier for toiletries like toothpaste, toothbrushes, and floss, another for skincare products such as cleansers, moisturizers, and serums, and the third tier for hair care items like brushes, combs, and hair ties.

Prioritize frequently used items:

Keep the items you use most often within easy reach on the top tier. This could include your toothbrush and toothpaste, face wash, or any other essentials you reach for daily. Keep items that you use less frequently on lower tiers.

Share the organization joy:

If you have a shared bathroom, assign each family member a specific tier for personal items. It will help everyone keep their essentials organized and minimize clutter in the bathroom.

Keep it clean and dry:

Clean and dry the caddy regularly to maintain a hygienic bathroom environment. Remove any excess moisture or spills to prevent mold or mildew growth. Consider using a waterproof liner or tray on each tier to protect the bamboo and make it easier to clean.

Take advantage of the handle:

This three-tier stationary caddy has a convenient handle, so it's easy to transport your supplies from one area to another. If you need to move things around, make use of the handle to carry your caddy with ease.

Use the caddy in your office:

The caddy is not just good for using in a bathroom. In an office, use each tier of the stationary caddy to organize your supplies such as pens, pencils, and paper. This will allow you to keep what you need within arm's reach while helping to keep your workspace free of clutter.

Use the three-tier stationary caddy to optimize space, keep your essentials organized, and maintain a clean and functional environment. Use these tips and hacks to create a well-organized and efficient setup with your three-tier caddy.

ORGANIZE IT ALL.

ORGANIZE IT ALL.

PLEASE READ INSTRUCTIONS COMPLETELY BEFORE ASSEMBLY
